

4 Reasons to Contribute to Your HSA

The Health Savings Account (HSA) that comes with your HSA-eligible high deductible health plan can be a powerful savings tool—but only if you're putting money into it! Here's why you should be contributing to your HSA:

1. HSA funds are yours forever

The money you put into your HSA never expires—even if you change jobs or retire.

2. Grow your financial safety net

Building your HSA balance means you can more easily manage your healthcare costs—especially those unexpected expenses.

3. Save on healthcare expenses

You can put money into your HSA, use it to pay for IRS-qualified medical expenses, and gain interest on it — all tax-free.

4. Invest your HSA funds*

HSA balances of \$1,000 or more can be invested—just like a 401(k). Plus, you can still access the HSA funds you've invested at any time, meaning your money is always there if you need it.

Small steps make a big difference!

Can't contribute much to your HSA this year? That's ok! The key is to start small, but start now. Small deposits to your HSA can really go a long way in helping you build a financial safety net for retirement—especially if you make them regularly.

Now, what are you waiting for? Maximize your HSA by contributing today at myaccounts.hsabank.com or on the mobile app.
